"Knock your socks off service is how I describe my experience working with the talented folks at Soar 2Success. From start to finish, **they give you all the tools** to write and publish and sell a successful book.

They take the guesswork and mystery out of the book production process, walking you through step by step with a reasonable timeline to get it all done. Not only do you receive a **beautiful finished product** that you can be proud of but also you will have fun in the process.

You will be thrilled with your decision to work with the best, I know that I am!"

WAS A
HUGE HIT!**

"In the first 6 months, I sold over 500 copies, booked multiple speaking engagements, and now have the best marketing piece for my business.

I tell everyone who asks me about writing a book to work with Soar 2 Success Publishing because they made the **process efficient and enjoyable**. I wrote the book, they took care of the rest. The book was published and in my hands before the scheduled date. **I am thrilled with the service from Soar 2 Success and looking forward to publishing my next three books with their team!"**

"Of all the strategic decisions I have made to build my speaking business, publishing my tip book with Soar 2 Success was one of the best. I had never written a book and the idea of organizing my content, designing the cover, finding an editor, creating the layout, getting an ISBN bar code, finding a printer and getting on Amazon was enough to make my head spin! When I learned about this turn key program filled with support and a team of editors, graphic designers, printers and a system that made it possible for me to create a book, I was in.

My book, *The Caregiver Coffeebreak* has elevated my business, provided additional revenue and, most importantly, increased my credibility and presence in the market. I am now in the process of writing my second book!"

The Caregiver Coffeebreak

"When I finally decided to write a Tip Book, I am so glad I chose to work with Soar 2 Success Publishing!

They have the process down to a science. There was a single document to submit all of the information needed and they took it from there. The cover, layout, editing, grabbing an ISBN number and getting in onto Amazon - Done! And so many other things I am sure I don't even know about that take you from an idea to a book in hand. **Thank you for making the process of becoming an author so easy!**

I read that most books sell less than 100 copies. Not true for me. I sold 150 copies in pre-order; and covered the cost of my investment before I had the books in hand. I received my books in August and had to re-order by November. The book has enabled to have a revenue add on to my speaking events. I can sell in advance. I sell after my speaking. I sell on my website and through Amazon. The size and price point make it easy for people to say yes and for them to **actually read.** My message now resonates without me. **This was the best business investment I made all year!"**
